Indramayu, West Java

I am a graduate of the Diploma 3 in Information Technology program from the Indramayu State Polytechnic with a GPA of 3.91. During my studies, I learned PHP, Laravel, HTML, SQL, UML, Python, and system documentation.

I have experience working on several projects involving database-driven system development and logical problem-solving, which has further strengthened my interest in web development and system analysis.

I enjoy learning new things, am detail-oriented, communicative, and adaptable, and am ready to contribute professionally as a Web Developer or System Analyst.

Work Experiences

PT Satya Amarta Prima - Tangerang Selatan, Indonesia
